Some Little Technicalities to Resolve:

- Should NAVSEALOGCEN N51 UPDATE WWW with decisions from this ACP in “FINAL Product” column? Who should be FINAL Product “button pusher”?
- Validation Scheduling -
 - Currently responsibility of PEO / SPM to enter suggested validation date & current validity
 - Necessary field in ACP database?
 - Who’s responsibility?

Special Requests

- 84 Ships below Average - On Candidate List
- Additional Requests for Detailed Analysis for Ships on Excluded List:
 - 11 Moved to Candidate List
 - 30 Detailed Analysis Posted on Excluded List
- NSLC will continue to support Special Requests as Resources permit
- NSLC will send next Candidate and Excluded List to TYCOMs / SPMs for validation prior to posting on WWW.
